**SHIMADZU**  
Excellence in Science

**Powerful, Multi-functional UV-Vis-NIR and FTIR Spectrophotometers**

Providing the utmost in sensitivity, accuracy and resolution for applications in materials characterization and nano research

- Photovoltaics
- Polymers
- Thin films
- Paints
- Ceramics
- DNA film structures
- Coatings
- Packaging materials

A row of four Shimadzu spectrophotometers is shown. From left to right: a small benchtop model, a larger benchtop model with a sample holder, a large floor-standing model with a wide entrance, and a tall floor-standing model with a large sample compartment.
